

CENTER FOR CAREER AND LIFE DESIGN COUNSELLING
create a life you love!

Prof.(Dr.) Somprakash Bandyopadhyay
Founder-Director
(Former Professor of IIM Calcutta, IIT Kharagpur and IIT Bombay)

21st August, 2026

Internship Certificate

This is to certify that **AKASH KUNDU, B.Tech in Computer Science & Engineering · Techno India University, Kolkata**, has done his internship in my project “AI Research & Social Innovation” under our new initiative <https://purpositiveai.com> from 1st July, 2026 for a period of one month.

The initiative **Purpositive AI** under our Center for Career and Life Design Counselling is a human-centered AI capability development and social innovation initiative. We focus on personalized AI learning and guidance to help rural SHGs and micro- entrepreneurs use AI meaningfully in their life and livelihood.

During his internship, he has developed AI-SATHI, a voice-first AI-assistant designed to support rural Self-Help Group (SHG) women in West Bengal through spoken Bengali interactions. To assess the practical relevance of the system, he conducted a consent-governed formative field study across eight SHGs within a cooperative society in Hooghly district, West Bengal. The study identified persistent challenges in manual bookkeeping and limited market knowledge, reinforcing the need for trustworthy, voice-first AI assistants for rural micro-entrepreneurs.

He has demonstrated ingenuity and works on his own in a self-directed manner. I am certain he would perform well wherever he works. I wish him all the best in all his future endeavor.
